**Bremen Seniors continue to contribute in many ways.**

It's a great time in human history to be a senior citizen!

All the numbers are on our side today, from lifespan to good health to retirement income. We keep our teeth longer through better dentistry, our eyesight sharp through cataract surgery (which became routine in 1957), our cholesterol and blood pressure under control through the miracles of modern healthcare. We live to an average of 75 for men and 80 for women, and a full 60% of us live past 80. Greeting card makers have created a line of products for the growing number of us hitting the magic 100 mark!

The numbers weren't so hopeful for our grandparents, those born around 1900. They could expect to live to about 50, and high infant mortality rates caused heartbreaking losses of many of their infant children. Leading cause of death for adults in the early 1900s was infectious disease: flu, pneumonia, tuberculosis, diphtheria, and gastro enteritis where diarrhea caused deadly dehydration. Today, we simply take a pill or get a vaccine to ward off those previously mortal dangers. Leading cause of death for this generation of senior citizens is heart disease and cancer, and effective life-extending treatments for both are readily available to all of us through an amazing Medicare/Medicaid system that just didn't exist for our grandparents.

In 1900 the average retirement income was about \$43 per month from various sources. Today, Social Security issues an average monthly check to seniors of about \$1,864. Granted, while that sounds

astounding it's often not enough to cover living costs in this new day, so many of us work part-time jobs both to supplement our income and to keep us engaged in life. It's not just about living longer today, it's living better! We get to meet our great grandchildren, hop on a plane to go someplace new and fun, play gentle sports well into our retirement years – and very few of us keep all our teeth in a water glass on the nightstand!

And that's where our township government comes in.

Bremen Township officials believe today's seniors have earned the right to truly golden years because of their lifelong hard work. We stand ready to support your lifestyle through many programs designed to celebrate you. We've expanded our Senior Division to provide transportation, lunch with friends, day trips, indoor activities, crafts with your grandchildren, and even some holiday parties with dancing.

The secret to a healthy retirement is to keep active, so please join us for these events. If you would like us to add anything else to our lineup, please call our Senior Department at (708) 687-8220 or email us at [info@brementownship.net](mailto:info@brementownship.net)!

Sincerely,

*Kathryn Straniero*
